

【Satellite S-III】

**Applications and Opportunities
for MEG in Intractable Epilepsy**

Chair

Dr. Richard C. Burgess

(Cleveland Clinic, USA)

■ Time : 15:45~17:15

■ Venue: Sendai International Center
2F Hall A[橘]

Program

1. “MEG Sensitivity and Yield for epileptic activity : Lessons from Intracranial Evaluations and Physics”

Dr. Richard C. Burgess (Cleveland Clinic, USA)

2. “Connectivity, High Frequency Oscillations, and Novel Tools for their Analysis”

Prof. Heidi E. Kirschof. Heidi (University of California, San Francisco, USA)

3. “The Use of MEG to investigate cognition”

Dr. Kamalini Ranasinghe (University of California, San Francisco, USA)

【information】

We are preparing “**sake**” at the aperitif corner from 17: 15 to 17: 45 on May 22nd.
Please stop by Ricoh booth.
