The 57th Annual Meeting of the Japanese Society of Child Neurology

Message from the Chair

It is our great honor to host the 57th Annual Meeting of the Japan the Society of Child Neurology. The 57th Annual Meeting of JSCN will be held from the 27th to 30th of May, 2015, at the Imperial Hotel, Osaka. We are working hard together with all members of the bureau to prepare a fruitful meeting of JSCN in Osaka.

In the past, annual meetings of JSCN were held five times in Osaka, in 1969 by Director Oura, in 1973 by Prof. Sakamoto, in 1984 by Prof. Yabuuchi, in 2000 by Prof. Okada, and in 2007 by Prof. Yamano.

The theme of this year’s meeting is: "Promote further progresses in child neurology based on a global partnership of health professionals and scientists, and bring joy to all children with neurological disorders".

Child neurology is now seeing further advances in scientific knowledge and technology due to the cooperation of all members of JSCN and also many scientists from various fields. In order to support the lives of children with neurological diseases, it is important for medical professionals to work together with professionals of the non-medical fields of sciences, welfare, education, etc. International partnership in the field of child neurology is now also needed. We would like to discuss new possibilities and prospects for these links.

In this meeting, four guest speakers from outside Japan and many speakers from various fields in Japan will give important talks. I hope that all participants will enjoy the meeting. The Imperial Hotel Osaka will provide us an excellent environment for such an important meeting. Osaka’s food is delicious. We are looking forward to meeting all members of JSCN and any participant who has an interest in this meeting in Osaka.

Toshisaburo Nagai, M.D., PhD
Chair, the 57th Annual Meeting of Japan Society of Child Neurology
Professor of Developmental Child Health Science, Area of Nursing Sciences, Division of Health Sciences, Osaka University Graduate School of Medicine
