Registration No.	Abstract No.	Program Theme	Date	Time	Room No.	Abstract Title
10000	FP26-5	Lymphatic disorder 1	Tuesday, 30th May	10:54-11:50	Room 4	Intra-abdominal lymphovenous anastomosis: a novel treatment for chylous ascites associated with abdominal lymphatic malformation
10001	FP27-7	Lymphatic disorder 2	Tuesday, 30th May	9:58-10:54	Room 4	A novel LVA training model using the rat efferent lymphatic plexus of the mesenteric lymph node for multiple stages of lymphedema.
10004	FP15-4	Hand 1	Tuesday, 30th May	14:45-15:17	Room 2	The Krukenberg Operation for a Blind Bilateral Forearm Amputee after an Extensive Burn Injury: Long-term Follow-up
10005	FP2-5	Eyelid Surgery 2	Monday, 29th May	14:40-15:20	Room 3	Frontalis Suspension Surgery with Upper Retroauricular Fascia Graft
10008	FP21-6	Leg Ulcer	Tuesday, 30th May	13:45-14:33	Room 3	7 years experience of micronized acellular dermal matrix for diabetic foot ulcer; efficacy and recurrence rate
10009	FP26-1	Lymphatic disorder 1	Tuesday, 30th May	10:54-11:50	Room 4	Difference in lymphedematous change between inguinal lymphadenectomy and inguino-pelvic lymphadenectomy in patients with skin cancer of the lower extremity
10010	FP23-5	Device and Technology	Tuesday, 30th May	15:05-15:45	Room 3	Comparison of Antera 3D and TcPO2 for Evaluation of Blood Flow in Skin
10011	FP17-5	Craniofacial Surgery 1	Tuesday, 30th May	8:30-9:26	Room 3	Analysis of the canthal dystopia associated with the swinging eyelid procedure
10015	FP26-7	Lymphatic disorder 1	Tuesday, 30th May	10:54-11:50	Room 4	Dual Imaging Lymphangiography and Intraperitoneal Lymphaticovenular Anastomosis Guided Treatment of Infantile Chylothorax
10018	FP9-3	Scar and Keloid	Monday, 29th May	15:04-15:44	Room 4	Reconstruction after Anterior Chest Wall Keloid Resection Using Bilateral Internal Mammary Artery Perforator flaps -Two case reports of Lotus petal flap-
10019	FP20-5	General Reconstruction 2	Tuesday, 30th May	11:18-12:14	Room 3	The ideal donor-site closure method of the rectus abdominis myocutaneous flap; A comparative study for absorbable barbed continuous versus non-absorbable non-barbed interrupted suture
10020	FP19-6	General Reconstruction 1	Tuesday, 30th May	10:22-11:18	Room 3	Evaluation of the Intraoperative Blood Flow For The Segmental Pectoralis Major Turn-over Flap using Indocyanine Green Fluorescence Angiography
10021	FP26-2	Lymphatic disorder 1	Tuesday, 30th May	10:54-11:50	Room 4	First experience of lymphaticovenular anastomosis using BHC Robotiscope
10022	FP9-2	Scar and Keloid	Monday, 29th May	15:04-15:44	Room 4	The Efficacy of keloid excision and adjuvant CT-based conformal electron beam radiation therapy: a single center experience and patient-reported outcomes
10023	FP28-4	Extremity reconstruction	Tuesday, 30th May	11:50-12:30	Room 4	Negative Pressure Wound Therapy Under Reverse Sural Flap: A Modified Delay Method
10024	FP28-1	Extremity reconstruction	Tuesday, 30th May	11:50-12:30	Room 4	Complicated Iatrogenic Lower Limb Wounds Reconstruction after Secondary Popliteal Artery Revascularization
10025	FP17-3	Craniofacial Surgery 1	Tuesday, 30th May	8:30-9:26	Room 3	A Case of Surgical Intervention in an Adult with Untreated Crouzon Syndrome
10026	FP7-4	Head and Neck 1	Monday, 29th May	14:00-14:32	Room 4	Postsurgical complications of craniofacial osteoradionecrosis
10027	FP27-3	Lymphatic disorder 2	Tuesday, 30th May	9:58-10:54	Room 4	Clinical Efficacy and Histological Evaluation of Stromal Vascular Fraction and Vascularized Lymph Node Transfer Combination Therapy in Rabbit Hindlimb Lymphedema Model
10028	FP14-5	Wound and Healing	Monday, 29th May	17:44-18:24	Room 4	Tissue-Engineered Dermis Grafts on the Face

Accepted Abstracts

(Free Paper / Oral Presentation / Language: English)

Registration No.	Abstract No.	Program Theme	Date	Time	Room No.	Abstract Title
10033	FP11-4	Microsurgery 2	Monday, 29th May	16:16-16:48	Room 4	Twin tower-shaped anastomosis: Two comitant veins anastomosed to a single recipient vein in end-to-end fashion
10034	FP8-2	Head and Neck 2	Monday, 29th May	14:32-15:04	Room 4	Fat-Augmented Temporal Fascia Flap for Defect Following External Auditory Canal Cancer Resection
10035	FP6-7	Vascular Anomaly	Monday, 29th May	17:28-18:24	Room 3	Streptococcal Toxic Shock Syndrome in a Pediatric Patient with Intramuscular Venous Malformation in the Neck: early diagnosis and treatment.
10036	FP6-4	Vascular Anomaly	Monday, 29th May	17:28-18:24	Room 3	Lingual arteriovenous malformation with bleeding treated with polidocanol foam sclerotherapy using intestinal forceps to control blood flow
10037	FP10-1	Microsurgery 1	Monday, 29th May	15:44-16:16	Room 4	Rare case of managing and evaluating viability after replantation of a serial self-amputated bilateral testis by a patient with schizophrenia
10038	FP18-5	Craniofacial Surgery 2	Tuesday, 30th May	9:26-10:22	Room 3	Prevalence and Risk of Premature Births for Cleft Lip and/or Palate: A Nationwide Population-based Cohort Study in Korea
10039	FP2-1	Eyelid Surgery 2	Monday, 29th May	14:40-15:20	Room 3	High Double Eyelid Fold Correction Composite Using Fat Strip Transplantation and Pretarsal Orbicularis Oculi Flap
10040	FP7-1	Head and Neck 1	Monday, 29th May	14:00-14:32	Room 4	Usefulness of pericranial flap for intractable head ulcer
10041	FP1-1	Eyelid Surgery 1	Monday, 29th May	14:00-14:40	Room 3	Case of lower eyelid reconstruction with the reverse facial artery flap for incomplete eyelid closure after maxillectomy and radiotherapy
10043	FP18-4	Craniofacial Surgery 2	Tuesday, 30th May	9:26-10:22	Room 3	Reduction malarplasty with pivot locking fixation
10044	FP9-5	Scar and Keloid	Monday, 29th May	15:04-15:44	Room 4	Scar revision after wrist cutting using W-plasty
10045	FP7-3	Head and Neck 1	Monday, 29th May	14:00-14:32	Room 4	The axial frontonasal flap for Asian nasal skin defect.
10046	FP26-3	Lymphatic disorder 1	Tuesday, 30th May	10:54-11:50	Room 4	Lymphatico-Venous Anastomosis for Lymphedema Cases - The Challenge in Our Hospital -
10047	FP10-2	Microsurgery 1	Monday, 29th May	15:44-16:16	Room 4	Three cases of free anterolateral thigh flap reconstruction after extensive debridement for deep neck abscess
10048	FP20-1	General Reconstruction 2	Tuesday, 30th May	11:18-12:14	Room 3	Pre and postoperative satisfaction surveys on labia minora reduction surgery
10049	FP6-5	Vascular Anomaly	Monday, 29th May	17:28-18:24	Room 3	Identification of miRNAs as Potential Biomarkers for Extracranial Arteriovenous Malformations
10050	FP6-1	Vascular Anomaly	Monday, 29th May	17:28-18:24	Room 3	Experience with oral sirolimus therapy for intractable lymphatic malformations at Tonan Hospital
10052	FP26-4	Lymphatic disorder 1	Tuesday, 30th May	10:54-11:50	Room 4	Lymphoscintigraphy for the Prediction of the Effect of Lymphaticovenular Bypass
10053	FP25-5	Basic Research 2	Tuesday, 30th May	9:10-9:58	Room 4	Quantitative Morphological Analysis of Cranial Vault in Twist1+/- Mice: Implications in Craniosynostosis
10054	FP18-2	Craniofacial Surgery 2	Tuesday, 30th May	9:26-10:22	Room 3	Experience of early mandibular distraction osteogenesis for microgenia with severe obstructive sleep apnea syndrome

Accepted Abstracts

(Free Paper / Oral Presentation / Language: English)

Registration No.	Abstract No.	Program Theme	Date	Time	Room No.	Abstract Title
10055	FP21-5	Leg Ulcer	Tuesday, 30th May	13:45-14:33	Room 3	A case of lower leg ulcer caused by immune checkpoint inhibitor-related vasculitis.
10056	FP1-4	Eyelid Surgery 1	Monday, 29th May	14:00-14:40	Room 3	Lower eyelid reconstruction using a step ladder VY advancement flap after removal of the malignant eyelid tumor
10057	FP20-2	General Reconstruction 2	Tuesday, 30th May	11:18-12:14	Room 3	A case of burn scar carcinoma with sacral invasion reconstructed using the gluteus maximus muscle turnover flap
10058	FP12-4	Facial Palsy	Monday, 29th May	16:48-17:20	Room 4	Lower Lip Lifting Aid with Hammock-like Fascia Graft
10060	FP25-4	Basic Research 2	Tuesday, 30th May	9:10-9:58	Room 4	Effect of topical tranexamic acid on seroma formation in a rat mastectomy model
10061	FP26-6	Lymphatic disorder 1	Tuesday, 30th May	10:54-11:50	Room 4	Treatment of refractory chylous ascites with Lymphaticovenous anastomosis on the greater omentum; A case repor
10062	FP22-3	Skin Tumor	Tuesday, 30th May	14:33-15:05	Room 3	Appropriate surgical margins for excision of squamous cell carcinoma of the lower lip
10065	FP19-2	General Reconstruction 1	Tuesday, 30th May	10:22-11:18	Room 3	Chest wall reconstruction after resection of dermatofibrosarcoma protuberans with fibrosarcomatous change using latissimus dorsi myocutaneous flap and a polytetrafluoroethylene prosthetic patch
10066	FP1-2	Eyelid Surgery 1	Monday, 29th May	14:00-14:40	Room 3	Development of eyelid and eyebrow measurement software, compare with the MRD1 method
10067	FP13-3	Laser	Monday, 29th May	17:20-17:44	Room 4	What Are the Factors That Induce Paradoxical Hypertrichosis After Laser Hair Removal?
10068	FP10-3	Microsurgery 1	Monday, 29th May	15:44-16:16	Room 4	The Clothoid Curved Surgical Needle: A New Alternative in Microsurgery
10069	FP4-5	Breast Reconstruction 2	Monday, 29th May	16:00-16:48	Room 3	Toxic shock syndrome caused by Methicillin-resistant Staphylococcus aureus after immediate breast reconstruction with tissue expander
10071	FP2-2	Eyelid Surgery 2	Monday, 29th May	14:40-15:20	Room 3	A Case Report of Non-Invasice Levator Tucking(NILT) Method for Iatrogenic Ptosis
10072	FP12-1	Facial Palsy	Monday, 29th May	16:48-17:20	Room 4	Surgical treatment for Oculopharyngodistal myopathy patient with facial muscle weakness
10073	FP10-4	Microsurgery 1	Monday, 29th May	15:44-16:16	Room 4	Free flap monitoring using subcutaneous microscopy by detecting capillary transformation.
10074	FP24-5	Basic Research 1	Tuesday, 30th May	8:30-9:10	Room 4	Basic research of skin and soft tissue regenerative medicine for adipose-derived stem cells in the treatment of radiation dermatitis/ulcer
10077	FP5-4	Nipple Areola	Monday, 29th May	16:48-17:28	Room 3	Modified skin banking closure technique after nipple areola-sparing mastectomy
10078	FP9-4	Scar and Keloid	Monday, 29th May	15:04-15:44	Room 4	Treatment of deliberate self-harm scars with 90-degree rotated and return split-thickness skin graft
10079	FP3-1	Breast Reconstruction 1	Monday, 29th May	15:20-16:00	Room 3	Evaluation of body composition after deep inferior epigastric artery perforator flap breast reconstruction by bioelectrical impedance analysis.
10080	FP3-2	Breast Reconstruction 1	Monday, 29th May	15:20-16:00	Room 3	Comparative Microbiome Analysis of the Contracted Breast Capsules Using Next Generation Sequencing

Accepted Abstracts

(Free Paper / Oral Presentation / Language: English)

Registration No.	Abstract No.	Program Theme	Date	Time	Room No.	Abstract Title
10082	FP23-1	Device and Technology	Tuesday, 30th May	15:05-15:45	Room 3	Usability of 3D camera in free fat injection cases
10083	FP21-1	Leg Ulcer	Tuesday, 30th May	13:45-14:33	Room 3	DNA Methylation Profiling for the Prediction of Recurrences and Prognosis in Patients with Diabetic Foot Ulcers
10085	FP22-1	Skin Tumor	Tuesday, 30th May	14:33-15:05	Room 3	Multiple pilomatricoma : Prevalance and clinical features
10086	FP18-1	Craniofacial Surgery 2	Tuesday, 30th May	9:26-10:22	Room 3	A TPF Pocket Method -The accumulation of experience-
10087	FP3-3	Breast Reconstruction 1	Monday, 29th May	15:20-16:00	Room 3	Morphological evaluation of reconstructed breast in patients with unilateral breast cancer using three-dimensional images
10088	FP17-4	Craniofacial Surgery 1	Tuesday, 30th May	8:30-9:26	Room 3	Extended indications of expansion orbitotomy in complex blowout fractures
10089	FP13-2	Laser	Monday, 29th May	17:20-17:44	Room 4	A novel method for objective color evaluation of capillary malformation: the challenge to predict how effective the next laser treatment will be.
10090	FP28-2	Extremity reconstruction	Tuesday, 30th May	11:50-12:30	Room 4	Retrospective assessment about Gustilo IIIB open leg fracture treatment using free flap transfer
10091	FP16-1	Hand 2	Tuesday, 30th May	15:17-15:49	Room 2	Surgical strategy for the claw nail deformity of nail
10092	FP6-6	Vascular Anomaly	Monday, 29th May	17:28-18:24	Room 3	Bordering Procedure, an effective method for large AVMs
10093	FP27-5	Lymphatic disorder 2	Tuesday, 30th May	9:58-10:54	Room 4	Development of Limb Lymphedema and Changes in the Extracellular Water Ratio
10094	FP24-4	Basic Research 1	Tuesday, 30th May	8:30-9:10	Room 4	Impact of young and aged adipose-derived stem cells in murine model of cell-assisted lipotransfer
10095	FP18-7	Craniofacial Surgery 2	Tuesday, 30th May	9:26-10:22	Room 3	The effectiveness of releasing the lower lateral cartilage through intranasal Z-plasty incision on the vestibular web during secondary correction of nasal deformities in complete unilateral cleft lip and palate
10097	FP17-2	Craniofacial Surgery 1	Tuesday, 30th May	8:30-9:26	Room 3	Characterization of Spheno-occipital Synchondrosis Fusion using Chronologic Age and Cervical Vertebrae Maturation Index from Pre-adolescents to Young Adults
10098	FP17-1	Craniofacial Surgery 1	Tuesday, 30th May	8:30-9:26	Room 3	Characterization of Cranial Growth Pattern Using Craniometric Parameters and Best-Fit Logarithmic Growth Curves
10101	FP28-3	Extremity reconstruction	Tuesday, 30th May	11:50-12:30	Room 4	Treatment for calcaneal osteomyelitis with pseudoarthrosis with a free fibular osteocutaneous flap: A Case Report
10102	FP12-2	Facial Palsy	Monday, 29th May	16:48-17:20	Room 4	Lengthening Temporalis Myoplasty using an intraoral approach for incomplete facial paralysis
10103	FP25-3	Basic Research 2	Tuesday, 30th May	9:10-9:58	Room 4	Improved Moldability and Elasticity of Chitosan-based Dermal Filler
10105	FP15-1	Hand 1	Tuesday, 30th May	14:45-15:17	Room 2	The Effect of Steroid and Mannitol Combination Therapy on Post-operative Recovery in Multiple Metacarpal Bone
10106	FP13-1	Laser	Monday, 29th May	17:20-17:44	Room 4	Treatment of melasma using a combination of CO2 laser and Q-switched ruby laser

Accepted Abstracts

(Free Paper / Oral Presentation / Language: English)

Registration No.	Abstract No.	Program Theme	Date	Time	Room No.	Abstract Title
10109	FP5-3	Nipple Areola	Monday, 29th May	16:48-17:28	Room 3	A New Method for Inverted Nipple Treatment with Diamond-shaped Dermal Flaps and Acellular Dermal Matrix
10110	FP27-4	Lymphatic disorder 2	Tuesday, 30th May	9:58-10:54	Room 4	Restoration of lymph flow by flap transfer can prevent severe lower extremity lymphedema after inguion-pelvic lymphadenectomy
10111	FP27-2	Lymphatic disorder 2	Tuesday, 30th May	9:58-10:54	Room 4	Lymphatic reconnection and restoration of lymphatic flow by non-vascularized lymph node transplantation
10112	FP18-3	Craniofacial Surgery 2	Tuesday, 30th May	9:26-10:22	Room 3	Traction therapy using an internal bone distraction device for the treatment of intractable bony ankylosis of the temporomandibular joint
10113	FP5-5	Nipple Areola	Monday, 29th May	16:48-17:28	Room 3	A nipple protector for the duct-preserving surgical correction of the inverted nipple.
10114	FP4-1	Breast Reconstruction 2	Monday, 29th May	16:00-16:48	Room 3	Risk factors for chest wall depression after implant insertion for breast reconstruction: a retrospective quantitative study
10116	FP22-4	Skin Tumor	Tuesday, 30th May	14:33-15:05	Room 3	Difficulty in Determining the Resection Site for Clear Cell Carcinoma of the Right Little Finger: A Case Report
10117	FP11-1	Microsurgery 2	Monday, 29th May	16:16-16:48	Room 4	Ischemic Time in Free-Flap Surgery With Arteriovenous Bundle Interposition Graft: Comparison of Two Anastomosis Sequences
10120	FP16-2	Hand 2	Tuesday, 30th May	15:17-15:49	Room 2	Multiple Digit Resurfacing with a Lateral Thoracic Free Flap: Two-stage Mitten Hand and Division Procedures
10121	FP20-4	General Reconstruction 2	Tuesday, 30th May	11:18-12:14	Room 3	A case report of back electrical injury sustained by a high-frequency melting furnace system
10122	FP14-1	Wound and Healing	Monday, 29th May	17:44-18:24	Room 4	A new LDLA therapy for ischemic wound
10123	FP2-3	Eyelid Surgery 2	Monday, 29th May	14:40-15:20	Room 3	Medial Epicanthal Fold Correction using a Y-W Epicanthoplasty in Asian Eyelids
10124	FP21-2	Leg Ulcer	Tuesday, 30th May	13:45-14:33	Room 3	A case of foot ulceration caused by neuropathy associated with eosinophilic granulomatosis with polyangiitis
10125	FP18-6	Craniofacial Surgery 2	Tuesday, 30th May	9:26-10:22	Room 3	Comparison of the surgical outcomes between two-flap palatoplasty with a buccinator musculomucosal flap and conventional two-flap palatoplasty in Japanese patients
10126	FP6-3	Vascular Anomaly	Monday, 29th May	17:28-18:24	Room 3	Hybrid treatment for trunk AVM: Two case reports
10127	FP22-2	Skin Tumor	Tuesday, 30th May	14:33-15:05	Room 3	Long-term outcomes of 21 cases treated with the reused skin graft technique for pyoderma chronica
10128	FP19-4	General Reconstruction 1	Tuesday, 30th May	10:22-11:18	Room 3	Superior epigastric artery perforator propeller flap for reconstruction of deep sternal wound infection combined chronic osteomyelitis: A case report
10129	FP3-4	Breast Reconstruction 1	Monday, 29th May	15:20-16:00	Room 3	Safety of augmenting breast volume in direct-to-implant breast reconstruction with contralateral breast augmentation: Comparison with two-stage reconstruction
10132	FP9-1	Scar and Keloid	Monday, 29th May	15:04-15:44	Room 4	A case report of wide depressed scar deformity treated with cutting wire and autologous fat graft
10138	FP6-2	Vascular Anomaly	Monday, 29th May	17:28-18:24	Room 3	Partially involuting congenital hemangioma with rapid growth after biopsy in infancy

Accepted Abstracts

(Free Paper / Oral Presentation / Language: English)

Registration No.	Abstract No.	Program Theme	Date	Time	Room No.	Abstract Title
10139	FP27-6	Lymphatic disorder 2	Tuesday, 30th May	9:58-10:54	Room 4	Intranodal lymphangiography with lipiodol as a diagnostic and therapeutic approach for spontaneous cervical chyle leak
10141	FP1-5	Eyelid Surgery 1	Monday, 29th May	14:00-14:40	Room 3	Lacrimal Plasty with Dacryocystorhinostomy-Anastomosis Using Microsurgery
10142	FP14-3	Wound and Healing	Monday, 29th May	17:44-18:24	Room 4	Micrografting strategy for abdominal refractory skin ulcer associated with SSI: Four case reports
10143	FP4-2	Breast Reconstruction 2	Monday, 29th May	16:00-16:48	Room 3	Association of Neoadjuvant Chemotherapy with Postoperative Outcomes in Immediate Prepectoral Prosthetic Breast Reconstruction
10145	FP16-3	Hand 2	Tuesday, 30th May	15:17-15:49	Room 2	Reconstruction of multiple digital defects by temporary syndactylization using a lateral arm free flap
10146	FP15-3	Hand 1	Tuesday, 30th May	14:45-15:17	Room 2	Lower temperature burn on replanted fingers and free flaps in hand
10148	FP4-3	Breast Reconstruction 2	Monday, 29th May	16:00-16:48	Room 3	Endoscopy-assisted Extended Latissimus Dorsi Flap plus Lipofilling for scarless breast reconstruction
10149	FP19-3	General Reconstruction 1	Tuesday, 30th May	10:22-11:18	Room 3	Huge Supraclavicular Ancient Schwannoma Derived from Brachial Plexus
10150	FP1-3	Eyelid Surgery 1	Monday, 29th May	14:00-14:40	Room 3	A novel procedure reconstructed skin-tarsoligamentous sling with a fascia lata strip combined with buccal mucosa grafting and cheek rotation flap for full-thickness lower eyelid defect
10151	FP15-2	Hand 1	Tuesday, 30th May	14:45-15:17	Room 2	Simulation of anemia from phlebotomies with medical leeches for venous congestion after digit replantation surgery in children
10152	FP24-3	Basic Research 1	Tuesday, 30th May	8:30-9:10	Room 4	Co-culture of Umbilical Cord derived Mesenchymal Stem Cells (UCMSCs) and Schwann cells improved Neurogenic differentiation.
10154	FP24-2	Basic Research 1	Tuesday, 30th May	8:30-9:10	Room 4	Development of BMP-loaded bioabsorbable microspheres with calcium-binding polymer-coating for high-efficiency bone regeneration
10156	FP25-1	Basic Research 2	Tuesday, 30th May	9:10-9:58	Room 4	Factors affecting survival rate in fat embolism
10157	FP5-1	Nipple Areola	Monday, 29th May	16:48-17:28	Room 3	SVF Pretreatment for Nipple Reconstruction in Radiated Breast
10158	FP14-2	Wound and Healing	Monday, 29th May	17:44-18:24	Room 4	A case study of burn treatment using RECELL.
10159	FP20-6	General Reconstruction 2	Tuesday, 30th May	11:18-12:14	Room 3	Modified Keystone Perforator Island Flap for Tension-Reducing Coverage of Axillary Defects Secondary to Radical Excision of Chronic Inflammatory Skin Lesions: A Retrospective Case Series
10161	FP16-4	Hand 2	Tuesday, 30th May	15:17-15:49	Room 2	Modified Mini-Keystone Flaps for Coverage of Tiny Volar Pulp Defects of the Fingertips in Cases with Missing Amputation Skin Stumps
10162	FP2-4	Eyelid Surgery 2	Monday, 29th May	14:40-15:20	Room 3	Transconjunctival Orbital Fat Reposition for Tear Trough Deformity Using an Bidirectional PDO Cog thread
10163	FP5-2	Nipple Areola	Monday, 29th May	16:48-17:28	Room 3	Nipple reconstruction using modified C-V flap with purse-string sutures for maintenance of long-term nipple projection
10165	FP11-2	Microsurgery 2	Monday, 29th May	16:16-16:48	Room 4	The Utility of Intraoperative High-Resolution Color Doppler Ultrasonography in Free Perforator Flap Planning for Efficient Flap Harvest and Reducing Flap Complications

Accepted Abstracts

Registration No.	Abstract No.	Program Theme	Date	Time	Room No.	Abstract Title
10166	FP20-3	General Reconstruction 2	Tuesday, 30th May	11:18-12:14	Room 3	Anatomical Study of the Internal Pudendal Artery and its Skin Perforator with Computed Tomography Angiography
10167	FP28-5	Extremity reconstruction	Tuesday, 30th May	11:50-12:30	Room 4	Strategy for resurfacing complex extremity defect with chimeric, linked flaps: a review with a ten-year experience at major trauma center
10168	FP7-2	Head and Neck 1	Monday, 29th May	14:00-14:32	Room 4	Reconstruction of Large Facial Defects Using Three or More Regional Flaps
10169	FP27-1	Lymphatic disorder 2	Tuesday, 30th May	9:58-10:54	Room 4	Prophylactic effects of vascularized lymph node transplantation and topical Tacrolimus after rabbit hind limb lymph node excision
10170	FP24-1	Basic Research 1	Tuesday, 30th May	8:30-9:10	Room 4	In vivo study of vascular endothelial growth factor on wound healing of rats
10171	FP25-6	Basic Research 2	Tuesday, 30th May	9:10-9:58	Room 4	Security Comparison of Various Surgical Knots in Suture
10173	FP21-3	Leg Ulcer	Tuesday, 30th May	13:45-14:33	Room 3	Comparison newly developed DIRECT coding system with five existing classification systems about prediction of amputation in diabetic foot ulcer
10175	FP8-1	Head and Neck 2	Monday, 29th May	14:32-15:04	Room 4	Analysis of oral function evaluation after tongue reconstruction surgery
10177	FP4-4	Breast Reconstruction 2	Monday, 29th May	16:00-16:48	Room 3	Drain tip culture in implant-based reconstruction; Is it of any value?
10178	FP21-4	Leg Ulcer	Tuesday, 30th May	13:45-14:33	Room 3	Direction change in a distal bypass graft due to increased collateral perfusion after the free flap transfer: a case report
10179	FP19-5	General Reconstruction 1	Tuesday, 30th May	10:22-11:18	Room 3	Analysis of the Chest Wall Reconstruction Methods after Malignant Tumor Resection
10180	FP11-3	Microsurgery 2	Monday, 29th May	16:16-16:48	Room 4	Microvascular anastomotic aneurysm after free jejunal transfer: case report
10181	FP19-1	General Reconstruction 1	Tuesday, 30th May	10:22-11:18	Room 3	Delayed procedure for prevention of post-thoracotomy infection in a patient with a history of a radical mastectomy and chest wall irradiation
10182	FP14-4	Wound and Healing	Monday, 29th May	17:44-18:24	Room 4	Artificial Dermal Sandwich Method in the Treatment of Burns
10183	FP17-7	Craniofacial Surgery 1	Tuesday, 30th May	8:30-9:26	Room 3	Orbital fractures requiring immediate repair: a retrospective study of 7 cases
10186	FP12-3	Facial Palsy	Monday, 29th May	16:48-17:20	Room 4	Double powered free gracilis muscle transfer for long standing facial palsy
10187	FP23-4	Device and Technology	Tuesday, 30th May	15:05-15:45	Room 3	The most far-away test: Simulated teleconsultation in an Antarctic station using extended reality technology
10189	FP3-5	Breast Reconstruction 1	Monday, 29th May	15:20-16:00	Room 3	Inframammary fold fixation in the DIEP flap breast reconstruction
10190	FP8-3	Head and Neck 2	Monday, 29th May	14:32-15:04	Room 4	Additional arterial anastomosis in anterolateral thigh flap for head and neck reconstruction
10191	FP25-2	Basic Research 2	Tuesday, 30th May	9:10-9:58	Room 4	An Experimental Model for Lymphedema in Swine: A Comparative Study

Accepted Abstracts

(Free Paper / Oral Presentation / Language: English)

Registration No.	Abstract No.	Program Theme	Date	Time	Room No.	Abstract Title
10195	FP17-6	Craniofacial Surgery 1	Tuesday, 30th May	8:30-9:26	Room 3	Usefulness of transconjunctival approach with paracanthal extension to the inferior orbital wall fracture combined with infraorbital rim
