

We are pleased to announce that the 22nd International Congress of Endocrinology (ICE2026) and the 99th Annual Congress of the Japan Endocrine Society (JES2026) will be held together at the Kyoto International Conference Center (ICC Kyoto) over five days from June 2 (Tue) to 6 (Sat), 2026 (ICE2026/JES2026).

The International Congress of Endocrinology (ICE) is held every two years, and after 1988 and 2010, this will be the third time that the Congress will be held in Japan. The Japan Endocrine Society (JES) has been actively involved in the International Society of Endocrinology (ISE) since its establishment, and as the JES will celebrate its 100th anniversary in fiscal year 2026, hosting the congress in Japan will be an especially valuable opportunity for JES members.

The theme of ICE2026/JES2026 is: Enlightened Endocrinology in Unprecedented Times. Globally, we are entering an unprecedented era, including digitalization, which has been rapidly accelerated by the experience of the COVID-19 pandemic; a super-aging society, which is mainly faced by developed countries; and extreme weather events, as exemplified by global warming. In the midst of these unprecedented times, we will gather in Kyoto - the birthplace of the Japan Endocrine Society - to discuss the new century of clinical and basic research in various fields of endocrinology.

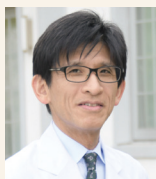

Participants from all over the world are encouraged to present cutting-edge science from their respective countries, and through active discussions, we hope that you will experience the "Enlightened Endocrinology" of endocrinology in this unprecedented era.

In June, flowers bloom profusely at shrines and temples in Kyoto with the blessings of water, and shrine gardens and hydrangea gardens are open to the public.

We look forward to welcoming participants from all over the world to Kyoto - the ancient capital of Japan - and discussing the future of endocrinology!

Hirotaka Shibata
(Oita University, Japan)
ICE2026 / Congress Co-chair

Yoshihiro Ogawa
(Kyushu University, Japan)
ICE2026 / Congress Co-chair
JES2026 / Congress Chair
