

Program : June 26, 2021 (Sat) Room A

9 : 55~10 : 00 Opening Remarks

Yoshito Akagi (Kurume University Graduate School of Medicine)

English Commentator : Clive Langham (Nihon University School of Dentistry)

10 : 00~11 : 00 A-1 (Esophagus and Upper Gastrointestinal Tumors and Surgery)
Chairperson : Masaru Morita (NHO Kyushu Cancer Center)

- A-1-1 A case of histological response of Grade 3 achieved by preoperative chemotherapy with TS-1/
L-OHP (SOX)
Asako Yamamoto
(Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- A-1-2 Techniques and outcomes of nonexposure laparoscopic and endoscopic cooperative surgery for
gastric tumors
Shohei Yonemoto
(Department of Frontier Surgery, Chiba University Graduate School of Medicine)
- A-1-3 Effectiveness of the GerdQ questionnaire for diagnosing gastroesophageal reflux disease after
esophagectomy for esophageal cancer
Kohei Saisho
(Department of Surgery, Kurume University School of Medicine)
- A-1-4 iTriangular Stapling Technique: A Modified Reconstruction Method and Clinical Outcomes of
Cervical Esophagogastric Anastomosis after Esophagectomy
Masahiro Komeda
*(Department of Surgery I, School of Medicine, University of Occupational and Environmental
Health Japan, Kitakyushu, Japan)*
- A-1-5 Results of simultaneous laparoscopic sleeve gastrectomy and cholecystectomy in patients with
morbid obesity and symptomatic gallbladder diseases
Masahiro Kawamura
*(Department of Gastroenterological and Pediatric Surgery, Oita University Faculty of Medicine,
Oita, Japan)*
- A-1-6 Thoracoscopic esophagectomy for esophageal cancer after surgery for left lung cancer: A case report
Fumiaki Shiratori
(Department of Surgery, School of Medicine, Toho University, Tokyo Japan)

11 : 00~11 : 50 A-2 (Colon Cancer)

Chairperson : Kimihiko Funahashi (Department of Gastroenterological Surgery, Toho University Omori Medical Center)

- A-2-1 Intracorporeal anastomosis for ascending colon cancer in a severe obese patient.
Gaku Inaguma
(*Department of Gastrointestinal Surgery, Fujita Health University*)
- A-2-2 Safety and feasibility of intracorporeal anastomosis in laparoscopic colectomy
Sho Nishimura
(*Fukuoka City Hospital, Department of Surgery*)
- A-2-3 Anatomical study of the inferior mesenteric vein using three-dimensional CT angiography in laparoscopy -assisted surgery for left-sided colorectal cancer.
Pramod Nepal
(*Department of Digestive Surgery, Breast and Thyroid Surgery, Graduate School of Medicine, Kagoshima University*)
- A-2-4 Prognostic value of preoperative high-sensitivity modified Glasgow prognostic score in predicting the prognosis of advanced colon cancer
Kenta Kasahara
(*Tokyo Medical University, Department of Digestive and Pediatric Surgery*)
- A-2-5 Is the prognostic nutritional index a risk factor for palliative stoma surgery?
Yasuo Nagashima
(*Department of Surgery, Toho University Omori Medical Center*)

12 : 20~13 : 10 Luncheon Seminar

Current update and clinical approach to the late-line and adjuvant therapy in colorectal cancer

Chairperson : Keisuke Miwa (Multidisciplinary Treatment Cancer Center, Kurume University Hospital)

Presenter : Yuji Miyamoto (Department of Gastroenterological Surgery, Graduate School of Medical Sciences, Kumamoto University)

Sponsored by 大鵬薬品工業株式会社

13 : 20~14 : 00 General Assembly and President's Message

Kotaro Maeda (Fujita Health University Hospital)

14 : 10~14 : 40 **Sponsored Seminar**

A Transition of Treatment and Future Problem in Colorectal Cancer

Chairperson : Fumihiko Fujita

(Department of Surgery, Kurume University School of Medicine)

Presenter : Takefumi Yoshida

(Department of Surgery, Kurume University School of Medicine)

Sponsored by 中外製薬株式会社

14 : 45~15 : 55 **A-3 (Clinical and Basic Cancer Research)**

Chairperson : Atsushi Shiozaki (Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine)

- A-3-1 A study on the mRNA in intraperitoneal lavage fluid in gastric cancer patients who underwent laparoscopic surgery
Hideaki Kaku
(*Department of Surgery, Kurume University School of Medicine*)
- A-3-2 Downregulation of Na⁺/K⁺-ATPase suppresses cancer development in human gastric cancer
Kei Nakamura
(*Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine, Kyoto, Japan*)
- A-3-3 TRPV2 promotes cell migration and invasion in gastric cancer via TGF-β signaling pathway.
Shunji Kato
(*Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine*)
- A-3-4 HER2 receptor expression in HER2-positive gastric cancer and with trastuzumab therapy
Hirasawa Soichiro
(*Department of Frontier Surgery, Graduate School of Medicine, Chiba University*)
- A-3-5 The molecular function and expression of Leucine-Rich Repeat-Containing protein 8A (LRRC8A) in gastric cancer.
Kento Kurashima
(*Division of Digestive Surgery, Department of Surgery, Kyoto Prefectural University of Medicine*)
- A-3-6 The Lymphocyte-to-monocyte Ratio is an Independent Prognostic Indicator in Pancreatic Head Cancer that Correlates With Obstructive Jaundice
Masahiro Takeuchi
(*Department of Surgery, Yamaguchi Rosai Hospital, Yamaguchi, Japan*)
- A-3-7 Duodenal microbiome in Pancreatic ductal adenocarcinoma
Shiro Kohi
(*Department of Surgery I, School of Medicine, University of Occupational and Environmental Health, Japan*)

15 : 55~16 : 45 A-4 (Rectal Cancer and Malignant Tumor)

Chairperson : Kenji Katsumata (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)

- A-4-1 Long-term recurrence-free survival in a patient, received chemotherapy for multiple metastasis of rectal cancer including lesser curvature lymph node metastasis.
Erika Yamada
(Tokyo Medical University Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University Hospital)
- A-4-2 Two cases of rectal malignant melanoma treated by laparoscopic abdominoperineal rectal resection
Saori Umezawa
(Department of Gastroenterological and General Surgery, St. Marianna University School of Medicine)
- A-4-3 Risk Factors for Pelvic Local Recurrence in Lower Rectal Cancer with Mesorectal Excision Alone
Kenji Fujiyoshi
(Department of Surgery, Kurume University)
- A-4-4 Trans-anal total mesorectal excision procedure for a gastrointestinal stromal tumor in the residual rectum following sigmoidectomy
Mitsunori Ushigome
(Department of Surgery, Toho University, Omori Medical Center)
- A-4-5 A case of leiomyosarcoma arising in the ischiorectal fossa
Kimihiro Yoshida
(Division of General and Gastroenterological Surgery, Department of Surgery, Toho University school of medicine)

16 : 45~17 : 25 A-5 (Rectum and Anal Disease Case Reports)

Chairperson : Keiji Hirata (Department of Surgery 1, University of Occupational and Environmental Health)

- A-5-1 A Case of Necrotic-type Ischemic Enteritis Treated by Early Surgery
Sojiro Kato
(Department of Gastroenterological and General Surgery, St. Marianna University School of Medicine)
- A-5-2 A case of laparoscopic rectal fixation for chronic organic constipation in 14-year-old due to insufficient fixation of rectum to sacrum.
Yushi Kaisyakuji
(Oita University Faculty of Medicine department of Gastroenterological and Pediatric Surgery)

-
- A-5-3 Analysis of Recurrent Risk Factors in the Altemeier Procedure for Rectal Prolapse
Yasuyuki Miura
(*Department of Gastroenterological Surgery, Toho University Omori Medical Center*)
- A-5-4 A successful case of osmotic therapy using a 50% glucose solution application for incarcerated rectal prolapse
Yuichi Ikeda
(*Division of General and Gastroenterological Surgery, Department of Surgery, Toho University School of Medicine*)

17 : 25~17 : 30 Closing Remarks

Yoshito Akagi (Kurume University Graduate School of Medicine)

Program : June 26, 2021 (Sat) Room B

English Commentator : Raoul Breugelmans (Kansai Medical University)

10 : 00~10 : 40 B-1 (Cardiovascular Surgery)

Chairperson : Eiki Tayama (Department of Surgery, Kurume University, School of Medicine)

- B-1-1 Left Atrial Appendage Management -Prevention from Cardiogenic Stroke
Takafumi Inoue
(*Department of Cardiovascular Surgery, Cardiovascular Center, Toranomon Hospital*)
- B-1-2 Pulse wave velocity changes after surgery for abdominal aortic aneurysms
Tomoyuki Anegawa
(*Department of Surgery, Kurume University Fukuoka, Japan*)
- B-1-3 Prevention of postoperative intrapericardial adhesion by dextrin hydrogel
Satoshi Kikusaki
(*Kurume University, Department of Surgery*)
- B-1-4 A Case of Type B Aortic Dissection after Endovascular Aortic Repair - Acute Arterial Occlusion of Lower Extremity due to Endograft Collapse
Takashi Hashimoto
(*Keio University, Department of Cardiovascular Surgery*)

10 : 40~11 : 30 B-2 (Breast Cancer and Malignant Tumor)

Chairperson : Yutaka Yamamoto (Department of Breast and Endocrine Surgery, Kumamoto University Hospital)

- B-2-1 Case of bilateral inflammatory breast cancer that achieved pathologically complete response with neoadjuvant chemotherapy
Xiangyue Meng
(*Department of Surgery, Nagasaki University Graduate School of Biomedical Science*)
- B-2-2 Clinical outcome of one- and two-stage reconstruction after Nipple Sparing Mastectomy (NSM) in breast cancer patients
Rie Sugihara
(*Breast Care Center, Department of Breast Surgery and Clinical Research Institute, National Hospital Organization Kyushu Medical Center, Fukuoka, Japan*)

-
- B-2-3 The usefulness of androgen receptor in predicting the therapeutic effect of HER2-positive breast carcinoma
Momoko Akashi
(Department of Breast and Endocrine Surgery, Nagasaki Harbor Medical Center Nagasaki, Nagasaki, Japan)
- B-2-4 The male mammary Paget's disease suspected as a malignant melanoma: report of a case
Shuntarou Matsushima
(Department of Surgery, Kurume University School of Medicine)
- B-2-5 Evaluation of local immuno-pathologic microenvironment in patients with breast cancer after neo-adjuvant chemotherapy
Nanae Ogata
(Department of Surgery, Kurume University School of Medicine)

11 : 30~12 : 00 B-3 (Oral and Respiratory Diseases)

Chairperson : Kazunori Okabe (Bell Land General Hospital)

- B-3-1 A case of MRONJ suspected to be caused by Epstein-Barr virus-positive mucocutaneous ulcer of the elderly.
Satoshi Fukuzawa
(Department of Oral and Maxillofacial Surgery, Institute of Clinical Medicine, Faculty of Medicine, University of Tsukuba)
- B-3-2 Trans-cervical and Thoracoscopic Drainage for Descending Necrotizing Mediastinitis
Kousei Tashiro
(University of Miyazaki Hospital)
- B-3-3 Fracture of catheter of a totally implantable venous access port via internal jugular vein - two case reports
Tanaka Yu
(Yame General Hospital)

14 : 45~15 : 35 B-4 (Duodenum, Intestine, and Retroperitoneal Disease)

Chairperson : Mitsuhsa Takatsuki (Department of Digestive and General Surgery, University of the Ryukyus)

- B-4-1 Surgical techniques with combined radical resection of great vessels in the treatment of huge retroperitoneal tumors
Koji Komori
(Department of Gastroenterological Surgery, Aichi Cancer Center Hospital)

16 : 25~17 : 25

B-6 (Liver, Gallbladder and Bile Ductal Surgery)

Chairperson : Katsuhiko Yanaga (International University of Health and Welfare Graduate School)

- B-6-1 Successful surgical biliary drainage with T-tube for combined bilioduodenal and biliobiliary fistula with gall stone: Report of a case.
Shinichiro Ishino
(Department of Digestive and General Surgery, Graduate School of Medicine, University of the Ryukyus, Okinawa)
- B-6-2 Combined with resection of common hepatic artery without reconstruction in pancreaticoduodenectomy with preserving the right gastric artery: two cases report
Yuki Takano
(Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- B-6-3 A rare case of liver transplantation, acute liver failure due to Adult onset Still's Disease
Yoshihiro Hirata
(Tokyo Women's Medical University, Digestive Surgery)
- B-6-4 Neoadjuvant hepatic arterial infusion chemotherapy with New FP regimen followed by hepatectomy for potentially resectable locally advanced hepatocellular carcinoma
Yuichi Goto
(Kurume University, Department of Surgery, Division of Hepatobiliary and Pancreatic Surgery)
- B-6-5 LAPAROSCOPIC PARENCHYMA PRESERVING HEPATECTOMY FOR INTRAHEPATIC CHOLANGIOCELLULAR CARCINOMA
Peilin Li
(Department of Surgery, Nagasaki University Graduate School of Biomedical Sciences)
- B-6-6 Utilization of Cone Beam CT in the lung segmentectomy for patients with primary lung cancer with ground glass nodules
Masaki Kashihara
(Department of Surgery, Kurume University School of Medicine, Kurume, Japan)
