Osaka International Airport (ITM)

Kansai International Airport (KIX)

Kansai International Airport (Itami Airport/ ITM)

Kansai International Airport (KIX)
The main international access point to Kyoto. The airport connects with over 70 cities, and major international carriers operate daily flights to multiple destinations. Also, KIX has a terminal that was specifically built for low-cost airlines; this has significantly improved access from greater Asia.

Osaka International Airport (Itami Airport/ ITM)
Geographically this airport is closest to Kyoto, but it mostly serves domestic flights.

Kyoto is one of the most visited and popular destinations in Japan and known as an ancient city that is rich in both history and culture.

Welcome Message

Yasufumi Sato
Co-Chair, ISA2021 Kyoto

On behalf of all members of the Japan Atherosclerosis Society and the organizing committee of ISA2021, we are delighted to welcome all the delegates to Kyoto, Japan for the 19th International Symposium on Atherosclerosis (ISA2021), schedule to be held from October 24 to 27, 2021.

The theme for the ISA2021 is "Toward Healthy Aging through Atherosclerosis Science".

The symposium will be held at Kyoto International Conference Center (ICC Kyoto), surrounded by a bountiful natural environment, including Mt. Hiei and Lake Takaragaike. Many of you may have great memories from the ISA symposium organized by JAS back in 2003 and we are thrilled to invite you back to this beautiful city. You may enjoy beautiful nature to appreciate the fresh air and bright colors, or after sessions, make a visit to some temples, shrines or authentic Japanese restaurants for cultural experience.

We sincerely hope that all participants to take advantage of being in Kyoto at this very best season.

Make sure to save the date, and we look forward to seeing you in Kyoto, October 2021!

Shizuya Yamashita
Co-Chair, ISA2021 Kyoto
