

Abstract No.	Session	Title	Country
409	APSAVD Oral	Lipoprotein(a) and Subclinical Coronary Atherosclerosis in Asymptomatic Individuals	Republic of Korea
441	APSAVD Oral	Patient derived-iPS cells identify a novel protective factor against atherosclerosis	Japan
347	APSAVD Oral	Association between HDL cholesterol efflux capacity and liver fibrosis in type 2 diabetes.	Hong Kong
483	APSAVD Oral	The next-generation sequencing to detect ABCG5 and ABCG8 gene variation in familial hypercholesterolemia amongst Malaysian Population	Malaysia
188	APSAVD Oral	Acetaldehyde dehydrogenase 2 regulates macrophage inflammation through STAT3 pathway in pathogenesis of atherosclerosis	China
452	APSAVD Oral	Shear stress divergence and helical flow associates with coronary plaque negative remodelling in fluid-structure interaction simulation	Australia
428	APSAVD Oral	Interrelationship of albuminuria with epicardial adipose tissue and left ventricular diastolic function in diabetic patients without reduced left ventricular ejection fraction	Japan
484	APSAVD Oral	Pathogenic variants in LDLR, APOB, PCSK9 and LDLRAP1 genes among clinically diagnosed individuals with familial hypercholesterolaemia in Malaysia	Malaysia
388	APSAVD Poster	THE EFFICACY AND SAFETY OF DUAL-PATHWAY INHIBITION THERAPY AMONG PATIENTS WITH PERIPHERAL ARTERIAL DISEASE: A META-ANALYSIS	Philippines
487	APSAVD Poster	Genetic spectrum of familial hypercholesterolaemia in an Asian community: Identification of disease-causing variants in the FH-candidate and Hypercholesterolaemia-associated genes using targeted next-generation sequencing	Malaysia
488	APSAVD Poster	Prevalence of clinically diagnosed familial hypercholesterolaemia and pathogenic variants of candidate genes amongst angiogram-proven premature coronary artery disease patients	Malaysia
217	APSAVD Poster	Presence of subclinical hypercortisolism in primary aldosteronism is associated with worse arterial stiffness and vascular remodeling	Taiwan
