3. Sponsorship Packages
4. Sponsorship À La Carte
5. Application Procedure
Introduction
The 21st IUPAB Congress 2024 (IUPAB2024) will be held under the theme of ‘Rocking Out Biophysics.’ It will be held jointly by the Biophysical Society of Japan (BSJ) and International Union for Pure and Applied Biophysics (IUPAB) as the joint congress of the 21st IUPAB and the 62nd BSJ, a highly international annual conference of unprecedented scale. The time and venue are as follows.

Date: June 24 (Mon.) – June 28 (Fri.), 2024
Venue: Kyoto International Conference Center and Kyoto University

Purpose of IUPAB2024
The Annual Meeting of the Biophysical Society of Japan will be co-held with the IUPAB Congress for the second time, following the meeting in Kyoto in 1978. That meeting in Kyoto was a great opportunity for Japanese biophysics researchers to communicate with their colleagues from around the world. The purpose of this second joint congress, held after an interval of 46 years, is to attract the world’s talents to Japan. That is, while the first joint congress focused on “connecting to the world,” this time the purpose is to “attract overseas talents to Japan.”

‘Rocking out Biophysics’: Shake up
One of the meanings of “rocking out ...” is “to shake up something.” We used this phrase to mean that we would shake up the existing concepts and create new biophysics. Prof. David Baker, Prof. Feng Zhang, and Prof. Toshio Ando were asked to deliver the plenary lectures to shape the congress; we believe that the three have rocked out the science. Dr. Baker has made an unrivaled contribution to protein design science, including development of the software package Rosetta for protein structure prediction. Dr. Zhang has developed a number of innovative technologies; particularly, he was the first in the world to implement CRISPR/Cas9-based genome editing in eukaryotic species. Dr. Ando developed the world’s first high-speed atomic force microscope, a pride of Japan’s biophysics; he has led the world in research to reveal the dynamics of biomolecules and biological systems. We would like IUPAB2024 to disseminate new concepts and technologies symbolized by these scientists.

‘Rocking out Biophysics’: Get excited
Another meaning of “rocking out ...” is “to be excited about something.” One of the most enjoyable things about academic meetings is the opportunity to fully enjoy science in an extraordinary environment. Annual meetings of BSJ are always popular for their free-spirited and lively atmosphere. This free and open culture, which is the inherent DNA of BSJ, attracts distinguished researchers from overseas. IUPAB2024 is designed to further enhance this open-minded atmosphere to be enjoyed by participants of every age, from academia and industry.

Globalization Strategy and IUPAB2024
The holding of IUPAB2024 is the culmination of the long-term globalization strategy consistently pursued by BSJ. The declining birthrate leads to the depletion of research workforce, and the field of biophysics is no exception. While giving top priority to fostering young specialists in Japan, we have long worked to attract human resources from overseas. To start with, we made English the official language of our annual meetings, ahead of the other academic societies. Currently, all presentations are made in English, and the number of attendees from overseas, including China, Korea, Taiwan, and other East Asian countries, is increasing steadily. We also organize regular bilateral symposia with the US, Australia, China, Korea, and India during our annual meetings to create a platform for exchange with outstanding researchers from overseas. In addition, membership has been made free for student members since 2022, thus reducing hurdles for young people, both from Japan and abroad. Since 2005, our society has published the journal Biophysics and Physiobiology in English. The number of posted papers grows year by year, and this year, the journal was given an impact factor. Thus, BSJ has made various efforts in line with its long-term globalization strategy. IUPAB2024 is the culmination of this strategic globalization, and our society will do its best to make IUPAB2024 a success.
‘Hands-on training program’ for Young Researchers

Another highlight of this congress is the ‘Hands-on training program’ aimed at young researchers from overseas. Apart from the joint congress, this special program will be hosted by Japan’s representative research institutions and projects so that young researchers from overseas will be able to experience the progress of biophysics in this country. Courses in high-speed AFM (Kanazawa University), high-speed bio-imaging (Osaka University and RIKEN), and molecular simulation (RIKEN) have already been fixed, and other distinctive courses are to be set up. To maximize the effect of this program, we would like to attract young researchers from around the world to Japan by providing a broad range of content, from fundamentals to cutting edge, in a symposium linked to the congress.

Exchange with Industry

We believe that an academic meeting is not a structure involving only researchers, but an ecosystem created together with the business people who visit the meeting to showcase their companies and scout for talents. In every congress, we arrange business exchange meetings to jointly improve a system of luncheon seminars, company presentations, etc. Since the 2002 Congress, we have held a pitch contest in which members of the industrial world assess entrepreneurial ideas proposed by academia; we are also considering new points of contact and formats of collaboration with business and industry. In this congress, in addition to providing opportunities to promote goods and services introduced via company presentations and luncheon seminars, we consider novel ideas to encourage exchange between society members and business people.

Kind Request

As mentioned above, BSJ will hold its congress under the theme ‘Rocking out Biophysics’; we will foster free-spirited discussions inherent to BSJ to enable lively exchange among both domestic and overseas participants of any age, from academia or industry. On the other hand, achieving this goal requires large expenses to set up and maintain the venue, etc. This letter of intent offers a variety of sponsorship options, but cooperation in other forms is also welcome. We will appreciate your understanding of the significance of IUPAB2024, its theme, and its content, and ask for your strong support. I would like by all means to make this great festival of science an exciting event.

Let’s Rocking out Biophysics!

Hiroyuki NOJI
The chair of the organizing committee of IUPAB2024
Past-President of Biophysical Society of Japan (2021-2023)
Professor, The University of Tokyo
| Name of Congress | 21st IUPAB Congress 2024  
The 62nd Annual Meeting of the Biophysical Society of Japan |
|------------------|-------------------------------------------------|
| Host / Organizer | Host: International Union for Pure and Applied Biophysics (IUPAB)  
The Biophysical Society of Japan (BSJ)  
Science Council of Japan  
Organizing Committee: The Organizing Committee of IUPAB2024 |
| Dates | June 24 (Mon) – June 28 (Fri), 2024 [5 days] |
| Venue | Kyoto International Conference Center  
(https://www.icckyoto.or.jp/en/)  
Science Seminar House in Graduate School of Science / Faculty of Science, Kyoto University (Public Lecture only) |
| Theme | **Rocking out Biophysics**  
‘Rocking out Biophysics’ implies valuing a platform to foster an open culture in which the society members can communicate freely and vigorously, and setting up the groundwork for Japan’s continuous innovative biophysics research to break stereotypes. In other words, this means an aspiration to shake up the existing biophysics and create new concepts and technologies. To this end, we will provide an opportunity for free and open exchange among the participants, regardless of their age and whether they are in academia or industry. I believe the youthful spirit of this academic society is very important for attracting talented researchers from overseas. |
| Anticipated Number of Participants | Overseas: 500 / Domestic: 1,200 / Total: 1,700  
(69 countries and regions)  
[Countries and Regions]  
Iceland, Azerbaijan, USA, Argentina, UK, Israel, Italy, India, Indonesia, Ukraine, Uruguay, Ecuador, Egypt, Australia, Austria, Oman, Netherlands, Canada, Korea, Kuwait, Croatia, Kenya, Colombia, Georgia, Singapore, Zimbabwe, Switzerland, Sweden, Spain, Sri Lanka, Slovenia, Serbia, Thailand, Taiwan, Czech Republic, China, Tunisia, Chile, Denmark, Germany, Turkey, Japan, Norway, Panama, Paraguay, Hungary, Bangladesh, Philippines, Finland, Brazil, France, Bulgaria, Vietnam, Venezuela, Belarus, Peru, Belgium, Poland, Portugal, Hong Kong, Honduras, Malaysia, South Africa, Mexico, Morocco, Mongolia, Jordan, Latvia, Romania, others |
| IUPAB Past Congresses | 20th : 2021 Brazil (On-line)  
19th : 2017 UK  
18th : 2014 Australia  
17th : 2011 China  
16th : 2008 USA  
15th : 2005 France |
This is the second joint congress between the Japan Biophysical Society and the IUPAB congress, following the one held in Kyoto in 1978. The joint congress in 1978 was a great opportunity for biophysicists in Japan to interact with researchers from around the world. The purpose of this joint congress for the second time in 56 years is to “disseminate the world’s highest level of Japan biophysics and related technologies and attract the world’s best human resources to Japan.” The main purpose of the first joint conference was to “push domestic human resources into the international research network.” On the other hand, this time, the main focus is to “attract overseas human resources to Japan.”

1) Structure of Congress (Tentative)
Plenary Lecture, Keynote Lecture, Parallel Sessions, Hands-on training Session, General Sessions (Poster Presentations), Public Lecture, Sponsored Seminars (Biophysics Seminars, Sponsored Symposiums, Morning Seminars), Exhibition, etc.

2) Official Language
English, Partially Japanese (Public Forum)

Recognition as ‘**Gold Sponsor**’
Company name and logo on the website and on slides in between presentations

**Second priority choice** of seminar slot and exhibition unit

Application deadline: Nov. 30, 2023

If you wish to change the contents of the packages, please contact us. Contents are explained on p.10 - p.15
**Silver Sponsor**

**Availability:** 2

**JPY 2,066,000 (TAX inc)**

**Benefits**
- Biophysics Seminar (Luncheon Seminar) 1 slot
- Exhibition Space (Type A) 1 unit
- Ad on Screen 1 slot
- Ad on Screen at Poster Venue 1 slot
- Website Banner Ad 1 slot
- Banner Ad on Event App (Confit) 1 slot
- Email Distribution to registrants 2 slots
- Flyer Congress Bag Insert 2 flyers
- Conference Dinner Invitation 2 people
- Pre-Symposium Presentation 1 unit

Application deadline: Nov. 30, 2023

**Recognition as ‘Silver Sponsor’**
Company name and logo on the website and on slides in between presentations

Third priority choice of seminar slot and exhibition unit
(Priority of choosing seminar slot and exhibition location is given based on the application order.)

**Bronze Sponsor**

**Availability:** 3

**JPY 1,703,000 (TAX inc)**

**Benefits**
- Biophysics Seminar (Luncheon Seminar) 1 slot
- Exhibition Space (Type A) 1 unit
- Ad on Screen 1 slot
- Banner Ad on Event App (Confit) 1 slot
- Email Distribution to registrants 1 slot
- Flyer Congress Bag Insert 1 flyer
- Conference Dinner Invitation 2 people
- Pre-Symposium Presentation 1 slot

Application deadline: Nov. 30, 2023

**Recognition as ‘Bronze Sponsor’**
Company name and logo on the website and on slides in between presentations

Fifth priority choice of seminar slot and exhibition unit
(Priority of choosing seminar slot and exhibition location is given based on the application order.)

If you wish to change the contents of the packages, please contact us.
Contents are explained on p.10-p.15
Exhibition Space
Exhibitions will be held at International Conference Center Kyoto Annex Hall for congress participants.

Dates: June 24 (Mon) – June 28 (Fri), 2024
Venue: Within and surroundings of International Conference Center, Kyoto (ICCK) Annex Hall (Poster Presentation Hall)

Fees:
1. Type A (W2000mm×D1000mm)
   JPY 550,000 / per unit
   For equipment, reagent chemicals, disposables, contract services, computer systems, etc.
2. Type B (W1800mm×D900mm) ※One display table
   JPY 33,000 / per unit
   For publishers of related topics, translation and proofreading service.
3. Type C (W2000mm×D1000mm)
   JPY 132,000 / per unit
   For universities, public research facilities, university ventures, etc.

Notes:
3 complementary registrations and 3 Name Badges will be provided.
Pictures of Exhibition Space during the conference may be posted on the official IUPAB2024 Social Media upon request.

Application Deadline: February 29, 2024

Biophysics Seminar (BP Seminar) ※Luncheon Seminar
During the Congress, corporate seminars for participants will be held at the venue at lunch time. The seminars will be co-hosted by IUPAB2024.

Dates: June 25 (Tue) - June 28 (Fri), 2024  Lunchtime  (60minutes per slot)
Availability: Maximum 23 slots (3-6 parallel seminars per day)

Fees:
1. Corporate Exhibition Companies and Academic Organizations
   JPY 770,000 / slot
2. Others
   JPY 880,000 / slot
3. Academia (Lunchboxes are not included in the fee)
   JPY 330,000/slot

Notes:
Sponsors will receive 3 complimentary registrations per 1 luncheon seminar. Sponsors for more than 2 seminars, will receive the following discounts.
1. JPY 550,000  2. JPY 650,000

Please arrange lunch and beverages for participants.
Orders for meals will be sent out separately (approx. JPY 1,500 per meal).
Pre-registration will be required for the Luncheon Seminars.
Please order the number of lunch boxes according to the number of participants registered. The number of participants will be informed through the secretariat. For seminars sponsored by academia, the Organizers will provide up to 100 meals.

Covered by Sponsorship Fee
1 seminar room, AV equipment (equipped at venue), personnel such as operation staff
If additional personnel or equipment is needed, please notify the secretariat.

※If there is a limit to number of slots, Package Sponsors will be prioritized.
Sponsored Symposium

Symposiums under the name of companies or institutions may be held. Duration of a symposium is 140 minutes, including recess.

②Ads on Screen at Poster Venue  JPY 165,000 / slot

Notes  
Advertisement at the Poster Venue will not be shown if other events are held at the venue.

Application Deadline  
February 29, 2024

7 Website Banner Ad
A Banner Ad will be placed on the IUPAB2024 Website.  
A link to a website of your choice may be embedded in the Banner.

Availability  
Maximum 5 slots

Dates  
After confirmation of registration and payment, Ad will be displayed until closure of official website.

Fees  
JPY 132,000 / Banner Ad  
Please provide data for the Banner Ad. Details on format of data will be sent out separately.

Application Deadline  
February 29, 2024

8 Advertisement on Congress Program Booklet
The Congress Program will be a compact booklet (Size A5, approx. 15×21cm) and will be distributed to all members of The Biophysical Society of Japan and participants of IUPAB2024.

Number of booklets  
5,000 copies (scheduled)  
Please provide data for your advertisement. Details on format of data will be sent out separately.

Fees  
Cover 2: black and white 1page (Size A5)  JPY 220,000 (1 slot only)  
Cover 3: black and white 1page (Size A5)  JPY 165,000 (1 slot only)  
Cover 4: black and white 1page (Size A5)  JPY 275,000 (1 slot only)  
One page in booklet: black and white 1page (Size A5)  JPY 88,000 / slot

Application Deadline  
February 29, 2024

※If there is a limit to number of slots, Package Sponsors will be prioritized.
At IUPAB2024 Congress, an App (Confit) that enables participants to browse programs on smartphones will be introduced. A Banner Ad can be placed on the top page.

### Banner Ad on Event App (Confit)

**Availability**
- Maximum 7 slots

**Details**
- Banner Ads will change randomly

**Dates**
- June 3 - August 31, 2024 (approximate dates)

**Fees**
- JPY 110,000 / banner
  Please provide data for the Banner Ad. Details on format of data will be sent out separately.

**Application Deadline**
- February 29, 2024

### E-mail distribution to registrants

Registrants who consent to receiving information from companies will receive corporate promotional e-mails.

**Distribution Dates**
- June 1 - June 28 Weekdays (1 sponsor per day)

**Distribution Details**
- 1 page (Size A4) approx. 1200 characters
  - Text Format (Rich Text Format also acceptable / English only)
  - Please provide manuscript.

**Fees**
- JPY 33,000 / distribution

**Notes**
- Multiple registrations will be accepted.

**Application Deadline**
- February 29, 2024

### Advertising on official Twitter Account

Information about sponsored seminars may be publicized on official Twitter account.

**Form of Distribution**
- Text (no more than 140 characters) and photos

**Fees**
- JPY 55,000 / distribution

**Notes**
- Multiple registrations will be accepted.

**Application Deadline**
- February 29, 2024

※If there is a limit to number of slots, Package Sponsors will be prioritized.

※If there is a limit to number of slots, Package Sponsors will be prioritized.
Sponsors will provide items for the Welcome Reception (First day of Congress) or Sake Night (Second day of Congress). Company name and logo will be displayed.

### Items to be provided
Drinks such as sake, food, snacks, cups, live performances, etc.
※Please provide items for approximately 400 participants.

### Fees
JPY 44,000/event

### Application Deadline
February 29, 2024

---

Sponsors for Welcome Reception or Sake Night

Sponsors will provide items for the Welcome Reception (First day of Congress) or Sake Night (Second day of Congress). Company name and logo will be displayed.

### Items to be provided
1 table with company’s name displayed, posterboard, etc.

### Fees
JPY 165,000～/event

### Notes
1 complementary registrations will be provided per registration.

### Application Deadline
February 29, 2024

---

Booth at Welcome Reception or Sake Night

A booth with one table may be set up either at the Welcome Reception or Sake Night. An opportunity to have sake, light snacks, give out promotional items, and have direct contact with participants.

### Items to be provided
1 table with company’s name displayed, posterboard, etc.

### Fees
JPY 165,000～/event

### Application Deadline
February 29, 2024

※If there is a limit to number of slots, Package Sponsors will be prioritized.

※If there is a limit to number of slots, Package Sponsors will be prioritized.
How to Apply for Sponsorship
Please apply from the sponsorship application form on the ‘SPONSORSHIP & EXHIBITION’ page of the IUPAB2024 website. Application received through the form will be considered as an official application.

Payment
An invoice will be sent to you after you have completed your application. Please make payment to the designated bank account listed in the invoice within one month of receiving the invoice. Please bear all transfer fees. Please note that we cannot make any refunds due to cancellations after payment.

※We will not issue a receipt. The transfer receipt issued by the bank will be your receipt.
※Please do not pay by promissory notes.

Cancellation
After receiving an official registration through the sponsorship application form, cancellation will not be accepted unless the organizer deems the situation unavoidable / force majeure. Please note that 100% of the sponsorship fee will be charged as cancellation fee regardless the reason of cancellation. In case of cancellation, a Written Notification should be sent to the Sponsorship Secretariat (contact below).

Information Disclosure
Each company may disclose the amount of money sponsored.
