

52. Heart failure (non-pharmacology)

Abstract No.	First Name	Last Name	Abstract Title	Session ID	Language
10060	Susumu	Hirose	Prevalence and prognostic implications of malnutrition as defined by GLIM criteria in elderly patients with heart failure	52-2	English
10145	Ryo	Yamada	Relationship between chronotropic response and frailty in heart disease patients assessed by wearable activity and heart rate monitor	52-1	English
10256	Masashi	Kawabori	Protect Right: Preoperative RVAD implantation in Patients at High Risk for Right Ventricular Failure Undergoing LVAD Implantation	52-3	日本語
10359	Kengo	Tsukahara	Application of a clinical pathway for patients with chronic heart failure to coordinate with local clinics	52-4	日本語
10519	Yusuke	Uemura	Differences in clinical impacts among nutritional assessment tools in patients with acute heart failure	52-4	日本語
10536	Kenji	Hanada	Characteristics of appropriate ICD therapy in patients with reduced LVEF due to coronary artery disease as primary and secondary prevention	52-1	English
10620	Yuki	Yamamoto	Clinical Pathway and Multidisciplinary Care of Elderly Patient with Heart Failure in Local Medical Area Are Improving the Clinical Courses	52-4	日本語
10697	Hisatoshi	Mori	The Acute Care for Congestive Heart Failure has Changed Dramatically in Five Years after the Introduction of Unique Clinical Pathway.	52-3	日本語
10702	Toshihiro	Iida	The Examination of Clinical Features about Congestive Heart Failure with Ischemic Heart Disease in Cases Applied Original Clinical Pathway.	52-3	日本語
10731	Yuto	Osumi	Preoperative Factors Associated with Postoperative Outcomes in Nonagenarian Patients with Aortic Stenosis after Transcatheter Aortic Valve Implantation	52-2	English
11158	Shunsuke	Torii	Association between Right Ventricular Pacing and Lower Left Ventricular Ejection Fraction and Heart Failure Hospitalization.	52-4	日本語
11262	Toshihide	Izumida	How to estimate optimal heart rate in patients with heart failure with preserved ejection fraction	52-2	English

52. Heart failure (non-pharmacology)

Abstract No.	First Name	Last Name	Abstract Title	Session ID	Language
11348	Can	Zheng	Daily fluid restriction improves survival rate in rats with chronic heart failure	52-1	English
11351	Hirota	Kida	The efficacy and safety of Adaptive servo-ventilation therapy for heart failure with preserved ejection fraction.	52-3	日本語
11596	Daisetsu	Aoyama	Sequential Organ Failure Assessment Score on Admission Predicts Long-term Mortality in Elderly Acute Heart Failure Patients	52-2	English
11606	Kenta	Yoshida	A comparative study of the prognosis of HFrEF and HFpEF in ischemic heart disease and non-ischemic heart disease	52-1	English
11634	Riki	Kitahashi	Effectiveness of High-Flow Nasal Cannula Oxygen Therapy (HFNC) for shortening sedation /fasting period in congestive heart failure (CHF)	52-4	日本語
11646	Akiko	Ushijima	Is the Exercise Intervention Promising for Improvement of Exercise Capacity in Heart Failure Patients With Preserved Ejection Fraction?	52-4	日本語
11720	Yasuhisa	Nakao	Cost-Effectiveness Analysis of the Long-Term Tolvaptan Strategy in Japanese Patients with Heart Failure	52-2	English
11760	Yuichi	Kawase	Annual Changes in the Prognosis of Heart Failure Patients Discharged from Our Hospital: A Report from the KCH-AHF Registry	52-1	English
11864	Shunsuke	Matsushita	Heart Rate at Discharge as a Predictor of Prognosis of Heart Failure Patients: A Report from the KCH-AHF Registry	52-1	English
11942	Takumi	Oki	Clinical Effects of Re-worsening Left Ventricular Function after Response to Cardiac Resynchronization Therapy	52-1	English
12172	Michiru	Nomoto	The current and future status of re-heart transplantation in Japan	52-3	日本語
12184	Yoshihiro	Kokubo	Development of 5-year Incident Latent Heart Failure Prediction for a Japanese Senior Population: The Suita Study	52-2	English

52. Heart failure (non-pharmacology)

Abstract No.	First Name	Last Name	Abstract Title	Session ID	Language
12192	Asami	Yoshimura	The Possibility of Destination Therapy for Elderly Non-responder of Cardiac Resynchronization Therapy	52-2	English
12197	Satoko	Ojima	Fib4-index can be a Prognostic Factor in Patients with Left Ventricular Assist Device	52-3	日本語
12214	Wataru	Fujimoto	Difference of Predictor of All-cause Death in Patients with Hospitalized Heart Failure According to Age Category	52-4	日本語
12215	Makito	Futami	Myocardial fibrosis as evaluated by endomyocardial biopsy predicts left ventricular reverse remodeling in patients with idiopathic dilated cardiomyopathy	52-3	日本語
