

# The 95th Annual Congress of the Japan Endocrine Society

Date : **June 2** (Thu) - **4** (Sat), 2022

Venue : B-CON PLAZA, Oita, Japan

Chair : Hirotaka Shibata

**Style** Hybrid

Onsite + Live streaming

▶ June 2 (Thu) - 4 (Sat)

On-demand streaming

▶ June 2 (Thu) - July 31 (Sun)

## Endocrinology in Focus

The 95th Annual Congress HP

**June 2** (Thu) **Symposium 1**

**English session**

**Update  
on primary aldosteronism:  
Beyond the clinical practice  
guideline 2021**

“Optimizing  
Treatment of Patients  
with Primary Aldosteronism  
in the Real World”

**K. Takahashi**  
Showa General Hospital, Japan

“Is adrenal venous sampling  
necessary for all patients  
with primary aldosteronism?”

**H. Umakoshi**  
Kyushu University, Japan

“Genetic and Cellular Causes  
of Primary Aldosteronism”

**W.E. Rainey**  
University of Michigan, USA

**This is a golden opportunity.  
Do not miss a chance  
to update Aldosteronism!**

June 2 (Thu)

English session

“Hyperthyroidism in Pregnancy”

**S.J. Mandel**

University of Pennsylvania, USA

“Is there a role for oxytocin replacement in pituitary disease?”

**E.A. Lawson**

Massachusetts General Hospital, USA

“Challenging Cases in Bone and Mineral Disorders”

**D. Shoback**

University of California San Francisco/VA Medical Center, USA

“Adrenal incidentalomas and autonomous cortisol hypersecretion”

**P.M. Stewart**

University of Leeds, UK

June 3 (Fri)

English session

“Management of Adrenal Tumors in Pregnancy”

**W.F. Young, Jr.**

Mayo Clinic, USA

“Prolactinoma Management – Not Always Straightforward”

**M.E. Molitch**

Northwestern University Feinberg School of Medicine, USA

June 4 (Sat)

English session

“EASD/ADA Guidelines for the Management of Adults with Type 1 Diabetes”

**A. Peters**

University of Southern California, USA

“Disorders of Water Metabolism: SIAD and DI”

**J.G. Verbalis**

Georgetown University, USA

“Primary Aldosteronism - A Clinical Potpourri”

**A.F. Turcu**

University of Michigan, USA

“Meet The Professor”  
“Everyone to gather!”

See What the World's Specialists Want you to Know!

June 4 (Sat)

“The KES-JES Joint Symposium: Adrenal 2022”

English session

“The potential role of aldosterone-producing micronodules in primary aldosteronism”

**J.S. Lim**

Yonsei University Wonju College of Medicine, Republic of Korea

“Automatic detection and classification of adrenal nodules”

**J.H. Kim**

Seoul National University College of Medicine, Seoul National University Hospital, Republic of Korea

“Characterization of aldosterone-producing cell cluster (APCC) at single-cell resolution”

**K. Nishimoto**

Saitama Medical University International Medical Center, Japan

“Characteristics of cardiovascular and renal complications in patients with primary aldosteronism”

**M. Sone**

St. Marianna University School of Medicine, Japan

**June 3 (Fri) Special Symposium**

## Optimal Treatment Strategies for Obesity

Professionals on Treating Obesity Gather Together

“Behavior Therapy for Obesity”

**T. Masaki**  
Oita University, Japan

“Weather Today Fine but High Waves: In Search of Optimal Solutions in Treatment Options”

**T. Tanaka**  
Nagoya City University, Japan

“Bariatric & Metabolic Surgery: to Whom, When and What?”

**T. Oshiro**  
Toho University  
Sakura Medical Center, Japan

**June 3 (Fri) Special Symposium**

## Non-Communicable Diseases Summit Symposium with Japanese authorities

The Search for a Deeper Understanding of NCDs

“COVID-19 & Endocrine Disorders”

**H. Arima**  
Nagoya University, Japan

“Hypertension in the COVID-19 Years”

**H. Itoh**  
Keio University, Japan

“Future of Diabetes Care from Inside the COVID-19 Pandemic”

**K. Ueki**  
Research Institute National Center for Global Health and Medicine, Japan

**June 3 (Fri) Special Symposium**

## Mineralocorticoid Receptor-Associated Hypertension

Getting Up-to-Date on Intractable Hypertension

Expert Recommendations on Treating Intractable and Treatment-resistant Hypertension

“Molecular Mechanisms for Mineralocorticoid Receptor-Associated Hypertension”

**I. Kurihara**  
National Defense Medical College, Japan

“Mineralocorticoid Receptors (MR) and the Development of Chronic Kidney Disease”

**S. Shibata**  
Teikyo University, Japan

“Primary Aldosteronism Now & Then: In Search of a Compass”

**T. Nishikawa**  
Yokohama Rosai Hospital, Japan

Cosponsored by Daiichi Sankyo Company

**June 3 (Fri) Lecture by Congress Chair**

[The present, past and future of aldosterone research]

“Soaking in the Wellspring of Aldosterone Research”

**H. Shibata**  
Oita University, Japan

# Special lecture

## Valuable Signposts by Legends in the Field

June 2 (Thu)

“Minimally Invasive  
Bariatric Surgery in Japan:  
Origins & Present Day”

**S. Kitano**  
Oita University, Japan

June 3 (Fri)

“Update on  
Pheochromocytoma  
and Paraganglioma”

**W.F. Young, Jr.**  
Mayo Clinic, USA

June 3 (Fri)

“Endocrinology:  
Visiting the Source & Looking to the Future”  
**H. Imura**  
The Japan Academy, Japan

June 4 (Sat)

“How Do  
the Pungent Components  
of Capsicum Accumulate?”

**R. Sugiyama**  
Tokyo University of Agriculture, Japan

## Keys to Future Medical Developments

June 2 (Thu) Special Symposium

### Blending Endocrinology & Nephrology in Renal Proximal Tubule Functions

Compelling Cross-Disciplinary Discussions

“Role of Urate Transporter URAT1  
in Regulating Serum Urate Levels”

**N. Anzai**  
Chiba University, Japan

“Renal Hypoxic Response &  
Proximal Convoluted Tubules:  
EPO & HIF-PH Inhibitors”

**M. Mukoyama**  
Kumamoto University, Japan

“SGLT2 Inhibitors &  
Organelle Dysfunction of  
Proximal Convoluted  
Tubular Cells”

**J. Wada**  
Okayama University, Japan

June 2 (Thu) Special Symposium

### Controlling NCDs in the “Coexist with COVID-19” Era in the New Normal

Imparting Wisdom on Facing NCDs  
in the COVID-19 Pandemic

“Diabetes Care for 2023:  
Changing Lifestyles &  
Longer Life Expectancies”

**R. Nishimura**  
The Jikei University Hospital, Japan

“COVID-19 & Heart Failure”

**K. Node**  
Saga University, Japan

“Current Status & Outlook  
for Lipid Management to  
Prevent Arteriosclerosis”

**K. Yokote**  
Chiba University, Japan

Endocrinology Experts in All Different Disciplines Gather Together
