Greetings from Organizers!

Dear Colleagues and Friends,

On behalf of the Japanese Society of Allergology (JSA) organizing committee, it is my great honor and pleasure to invite you to attend the JSA/WAO Joint Congress 2020, held from September 17 to 20, 2020 in Kyoto, Japan. After 30 years, this is the JSA's third time as co-hosts of the World Allergy Congress, and this time the congress will also be held in conjunction with the APAPARI 2020 Congress.

As the premier event in the fields of allergy/immunology, we ensure the great success of this joint congress by offering participants an invaluable educational experience as well as the opportunity to explore new scientific discoveries and relevant key updates in major areas of the field.

We also plan to hold several social activities for attendees to deepen their long friendships while establishing new ones, too.

The host city, Kyoto, is the ancient capital of Japan and is recognized worldwide as the country's historical, cultural and spiritual heart. The city offers numerous cultural and unique experiences with its countless shrines, temples, and architectural masterpieces including 17 UNESCO World Cultural Heritage Sites.

As the global impact of COVID-19 grows every day, our top priority will always be the health and safety of the participants & invited faculty, as well as our dedicated corporate sponsors and staff.

In line with this, and after much careful and deliberate consideration, we have decided to extend our abstract submission and early registration deadline until a later date.

It is our sincere hope we will still be able to welcome many of you to Kyoto this September so that you will have the opportunity to participate in the JSA/WAO Joint Congress.

Until then, it is from the bottom of our hearts that we wish you safety, health, and peace of mind during these uncertain times.

Motohiro Ebisawa
Motohiro Ebisawa, M.D., Ph.D.
Congress President, JSA/WAO Joint Congress 2020
President, WAO

In September 2020, the Japanese Society of Allergology (JSA) co-organizes the XXVII World Allergy Congress (WAC2020) in Kyoto with the World Allergy Organization (WAO). I am filled with anticipation, especially when I imagine the likeminded people from around the world gathering in Kyoto and passionately exchanging opinions on different topics. As president of JSA, I am delighted to have such a valuable opportunity.

Around the world, many people contract an allergy and suffer from problems such as rapid changes in symptoms and a significant deterioration in their quality of life. It has been shown that nearly half of all people in Japan have an allergy of some form. Needless to say, the circumstances surrounding patients have improved dramatically from days past, thanks to improved recognition of and understanding about allergies in society, let alone the elucidation of the pathology, improvements in diagnostic and therapeutic technologies and the availability of novel medicines. However, all this is not enough. Allergies still have an enormous impact on the lives of so many people.

Every meeting of WAC attracts nearly 4,000 people from all over the world, including specialists, researchers and healthcare providers with an interest in allergology or immunology. In other words, people from many different races gather from many countries and exchange opinions on the basis of their diverse knowledge. I strongly wish that, at the meeting in Kyoto, this diverse knowledge will be united, new wisdom will be created, and we will take another step towards a world free from the troubles of allergies.

Yuji Tohma
Yuji Tohma, MD, Ph.D. (Chair, JSA Local Organizing Committee)

It is my great pleasure to invite you to Kyoto, Japan for Japanese Society of Allergology (JSA) /World Allergy Organization (WAO) XXVII World Allergy Congress (WAC 2020) conjoint with our mutually collaborating partner, the Asia Pacific Academy of Pediatric Allergy, Respiriology and Immunology (APAPARI).

Holding the JSA/WAO World Allergy Congress 2020 in Japan is fitting given JSA's standing in the allergy community and the countless contributions that their members have made to the allergy and clinical immunology profession.

Kyoto, Japan hosted the World Allergy Congress in 1991 and we are excited to invite you back to the historic city. Japan's historic capital is truly magnificent and we hope you are able to join us to explore the historic riches of the city while learning the most advanced and cutting edge aspects of the Allergy and Clinical Immunology.

Ignacio J. Ansotegui
Ignacio J. Ansotegui, MD, Ph.D. (Past president, WAO)

Allergic diseases in children constitute a growing health problem, affecting millions of children and their families in the Asia-Pacific region, and having a considerable socioeconomic impact worldwide. Therefore, it gives me great pleasure and honour to invite all APAPARI members and all doctors who are interested in allergy, to attend the JSA/WAO Joint Congress in conjunction with APAPARI, which will be held on 17 - 20 September 2020 in Kyoto, Japan. This Congress will cover the latest scientific developments in allergy, presented by renowned international, regional and national speakers and will give you a unique opportunity to interact with key world opinion leaders. Be there!

Hugo Van Bever
Hugo Van Bever (President, APAPARI)

Invited Speakers

Keynote Speaker

Shimon Sakaguchi

Professor, Experimental Immunology, IFReC Building, Osaka University, Osaka, Japan

Prof. Sakaguchi is an immunologist best known for his discovery of regulatory T cells and has been acknowledged by prestigious international awards.

Awards and Prizes (selected)

Medal with Purple Ribbon from the Emperor (2009)

Japan Academy Award (2012)

Canada Gairdner International Award (2015)

Thomson Reuters Citation Laureates (2015)

Travel Grants and Presentation Awards

Travel Grants for International Participants

We are pleased to offer travel grants to high-quality young scientists from diverse geographic who wish to attend the JSAWAO Joint Congress in Kyoto, Japan.

The following travel grants are available:

| Geographical Area | Number Available | Amount awarded |
|---------------------|------------------|----------------|
| Asia | 10 | 50,000JPY |
| Middle East/ Africa | 2 | 150,000JPY |
| Europe | 5 | 150,000JPY |
| North America | 5 | 150,000JPY |
| Latin America | 4 | 200,000JPY |

Accommodation up to 4 nights will be also provided by the organizer.

Eligibility to apply for travel grants

- Complete your registration in "Fellow-in-Training" (payment paid in full)
- Be first author of an abstract

*The total amount cannot be increased under any circumstances.

Travel grants recipients will be due to be announced in July, 2020.

Presentation Awards

There is an opportunity to be considered for the JSAWAO Joint Congress Best Oral & Poster Presentation Awards! All free papers will be eligible for the awards. Look forward to your scientific contributions!
